FLAIRIMO

Description

The filters have incorporated several unique design features to minimise differential pressure and provide a filter and element combination where the differential pressure starts low and stays low to maximise energy savings and provide the lowest lifetime costs without compromising air quality.

Features

- For the removal of bulk liquid, water and oil aerosols, atmospheric dirt and solid particles, rust, oil vapour, and microorganisms
- Coalescing filter performance tested to the stringent requirements of ISO12500-1, ISO8573-2 and ISO8573-4
- Dry particulate filter performance tested in accordance with the requirements of ISO8573-4

FLAIRMO - OX 1? Filter

Specifications

Filter Type Coalescing

Maximum Flow Rate 600 I/min @ 7 Bar

1,5 - 80 °C

Operating Pressure 1 - 16 Bar

Operating

Temperature

Min. Service Interval 12 Months

Drain Float

Connection 3/8 BSPP Inch

LxWxH 65 x 76 x 180 mm

Weight 0.61 kg
