
FLAIRMO RAD 250 – AIR DRYER

The FLAIRMO RAD 250 is a compact refrigerated air dryer designed for long service life and easy maintenance. Its efficient design delivers dry air with a low pressure drop, extending the lifetime of your air system.

Specifications

Inlet Air Temperature	5 - 60 °C
Ambient Operating Temp.	2 - 50 °C
Outlet Pressure Dew Point Of 3°C	250 l/min
Inlet Air Pressure Min - Max	3 - 16 Bar
Voltage / Frequency	230V / 50Hz
Power	0,12 kW / 0,9 A
Connection	3/8 Inch
Drain	Automatic frequency drain
Weight	19 kg
LxWxH	360 x 305 x 408 mm
